

# UNIT 1 - LESSON PLANS

**Class** Math 6

**Topic** Comparing Ratios

**Lesson** 4 **Of** 8

## Objective

Students will:

- Be able to compare ratios.
- Be able to compare ratios using different methods.
- Be able to make decisions by comparing ratios.

## “I Can” Statement

I can compare ratios using different methods.  
I can compare ratios to make decisions.

## Common Core Standards

[CCSS.MATH.CONTENT.6.RP.A.3](#)

Use ratio and rate reasoning to solve real-world and mathematical problems, e.g., by reasoning about tables of equivalent ratios, tape diagrams, double number line diagrams, or equations.

[CCSS.MATH.CONTENT.6.RP.A.3.A](#)

Make tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use tables to compare ratios.

## Bell Work

See Bell Work 1-4

## Procedures

1. Start and lead student discussion related to the bell work.
2. Distribute the Guided Notes
3. Present lesson or play a video lesson.
4. Use an Online Activity if time permitted.
5. Distribute Lesson Assignment.

## Assessment

Bell Work 1-4  
Assignment 1-4  
Exit Quiz 1-4
