

**Division: The Size of the Group** Exit Quiz – Teacher Edition **Math 3**

Write the letter of the corresponding size of each group to complete the following equations:

1.  $45 \div 9 = \mathbf{C}$        $32 \div 4 = \mathbf{A}$        $28 \div 7 = \mathbf{B}$

Shade the dots to find the size of each group of  $42 \div 6$

**$63 \div 7$**

Draw the expression into equal groups to determine the size of each group.

Size of each group: **9**

**Determine the quotients of the following:**

4. 30 separated into 6 groups = **5**

5. 56 separated into 7 groups = **8**
