

Write the appropriate equation for the following descriptions about the array below:

1. The dots grouped into four.

2. The total rows and columns.

3. Only 18 dots are red.

Answer the situation below:

The teacher handles 4 sections that total to 32 students. Each section has the same number of students.

4. Draw an array to represent all the students.

5. How many students are there in 3 sections?
