

# Measure Liquid Volume Exit Quiz

Math 3

Answer the following questions below:

1. Encircle the measurements that are equivalent to 1 liter:

100 milliliters of juice

1000 mL of water

10 milliliters of soda

1 liter of iced tea

2. What is 2000 milliliters in liters? \_\_\_\_\_

3. How many 10-milliliters are in 1 liter? \_\_\_\_\_

A 100-milliliter cup is used to scoop water from a tank and into a jug. Shade how many cups should be used to fill the jug with 1 liter of water.
